Donini is a brand of premium leather bags and accessories from Italy that was founded in 1970.

PROBLEM

Donini needed to improve their online website's accessibility. Their initial website was built partly in Flash, that was not available on mobile devices. Another requirement was to improve their e-commerce platform by automating its on-site sales system.

CHALLENGE

For this platform, we figured the e-commerce system would have to be very user friendly as the site would be used by mostly non-tech-savvy users. The design itself must match, if not leverage, the brand Donini. Fortunately good technology with great design is Trio's speciality.

SOLUTION

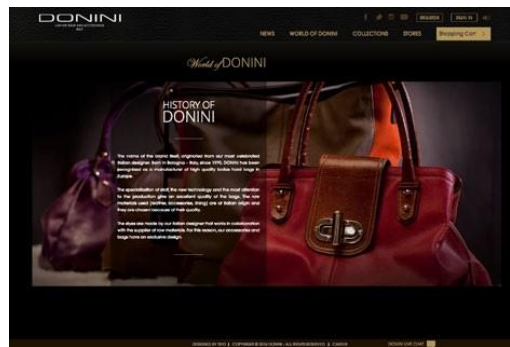

We decided to build a new web system from ground-up, to make sure we could cover all of the technical details. For the payment system, instead of credit card payment, we decided to work with BCA bank to implement KlikPay system.

As with all of our other projects, we also made this website accessible on mobile apps by making the app responsive.

CONCLUSION

Website built, e-commerce system implemented.

TEAPRESSO

FOOD & BEVERAGES

IT'S FRESH, IT'S BETTER

TeaPresso was founded in Taipei, Taiwan. After number of years of research, dedication and passion for BubbleTea culture, the founder created TeaPresso. His dedication and passion took him all around Taiwan (the birth place of BubbleTea) to search the best and freshest ingredients and learn their unique way of preparing. Every cup of TeaPresso is no different than the other.

PROBLEM

Teapresso wanted to introduce their brand to Indonesian market. The image they want to show was that Teapresso use only the fresh ingredient imported directly from Taiwan, and mixed on the spot.

CHALLENGE

The biggest challenge is how to introduce the Teapresso's to local market in order to compete with the competitor's brand that already became the audience's top of mind

SOLUTION

We developed a logo with foliage elements to accentuate the impression of freshness and naturality. Several marketing strategies through the web, social media promotions, and events were also held on regular basis to build public's brand awareness of Teapresso.

We also introduced a tagline "It's Fresh It's Better" to further reinforced this idea.

CONCLUSION

Teapresso had indeed continued to be one of the prominent players in BubbleTea industry all across Indonesia.

Ketika harimau Jawa sudah tinggal sejeleh dan harimau Sumatera semakin terancam punah, Juni 2014 ini "Macan" baru akan melintasi jalan-jalan di Indonesia.

Sama-sama gahar, hanya saja yang ini adalah SUV terbaru buatan pabrik otomotif terkemuka Jerman, Porsche Macan. Satu lagi model mobil dunia meminjam nama hewan eksotis Indonesia.

Sukses terjual puluhan ribu unit di negerinya sendiri, Jerman, Porsche Macan kini masuk ke Indonesia melalui PT. Eureka Artha Utama, pemegang merek Porsche di Indonesia. SUV terbaru Porsche ini debut pertama kali dalam pameran Los Angeles Auto Show akhir 2013 lalu. Macan diposisikan berada di bawah
